INDEX TO GEOPHYSICAL ABSTRACTS 128–131

JANUARY–DECEMBER 1947

[The figure in parentheses indicates the classification of the entry; see table on contents]

A

	No.	Class	Abst.
Adkins, J. N., Training the geologist for geophysical work	129	(9)	9274
Aeronautical Chart Service, Reconnaissance mapping with trimetrogon photography	130	(9)	9461
Agamennone, Giovanni, The earthquake of June 1934 in the Carnic Forealps and its hypocentral depth	128	(3)	9003
——— Macroseismic study of the earthquake of Oct. 18, 1936, at Cansiglio, Friuli	129	(3)	9181
Aiken, C. B. Compensatory means for electrical borehole apparatus, U. S. patent 2,411,843	128	(4)	9124
Alexanian, C. L., Magnetic prospecting at the Grande Mâcholles	130	(2)	9348
Alexanian, C. L., and Rothé, J. P., Gravimetric prospecting at the Grande Mâcholles, near Riom	130	(1)	9329
Allcock, H. J., and Jones, J. R., The nomogram	129	(9)	9275
Allison, A. P., and Claypool, C. B., Developments in upper Gulf coast of Texas in 1946	130	(8)	9440
Al'pin, L. M., Sources of the electrical field in the theory of electrical prospecting	131	(4)	9597
Ambolt, Nils, The Magnetic homogeneity of testing grounds for investigation and compensation of airplane compasses	131	(2)	9537
American Society of Civil Engineers, Definitions of surveying terms	131	(9)	9652
Anderegg, Fred, Aerial negatives and prints, their classification and preservation in the United States	131	(9)	9653
Anderson, Einar, Gravity measurements in Sjaelland, Møen, Falster, and Lolland by means of the Askania gravimeter	131	(1)	9519
Andreev, B. A., The calculation of the spatial distribution of potential fields and its utilization in exploration geophysics	131	(8)	9629
Angenheister, G., Determination of a boundary surface by means of the travel times or emergence angles of reflected waves	130	(3)	9374
Ansel, E. A., Concerning the attraction of spherical masses on the globe viewed from the isostatic standpoint	128	(1)	8963
Antes, L. L., Magnetometer, U. S. patent 2,420,580	130	(2)	9486
Aquilina, C., On the possibility of prospecting the subsoil by using the deviations of the vertical	128	(1)	8964
——— On the interpretation of the results of subsoil exploration by the inductive method with a horizontal net	130	(4)	9410
Archie, G. E., Electrical resistivity an aid in core-analysis interpretation	130	(4)	9411
Armstrong, L. D., The use of high permeability materials in magnetometers	130	(2)	9349
Askania-Werke A.-G., Gravimeter determining the vertical displacement of a mass supported by a spring, Dutch patent 49,880	128	(1)	9113

B

Bader, G. E., Geophysical history of the Anahuac oil field, Chambers County, Tex	130	(3)	9375
Baird, H. F., Old fallacies and new facts about earthquakes	128	(3)	9004

	No.	Class	Abst.
Baker, A. W., Waterproof explosive cartridge, U. S. patent 2,408,189	129	(3)	9310
Baker, J. S., with Stick, J. C., and Norelius, R. G., New electrical logging techniques in California	130	(4)	9421
Ballarin, Silvio, Auxiliary tables for the calculation of the topographic reduction of gravity measurements	129	(1)	9139
——— Graphic determination of the topographic reduction of gravity measurements based on the hypothesis of a spherical earth	130	(1)	9330
Balsley, J. R., Jr., with Hawkes, H. E., and others, Geophysical investigations, preliminary aeromagnetic maps 1 and 2	128	(2)	8988
Balsley, J. R., Jr., with Jensen, H., Controlling plane position in aerial magnetic surveying	129	(2)	9167
Bamberg, Carl, Gravimeter determining the vertical displacement of a mass supported by a spring, Dutch patent 49,880	128	(1)	9113
Baranov, Vladimir, Concerning a new master-chart for calculating the effect of thin and plane magnetic layers	128	(2)	8981
Bardill, J. D., Magnetic surveys in Clinton County, N. Y	129	(2)	9158
Barret, W. M., Method for electromagnetic-wave investigations of earth formations, U. S. patent 2,426,918	131	(4)	9692
Barschall, H. H., and Bethe, H. A., Energy sensitivity in fast neutron counters	130	(5)	9425
Barstow, O. E., and Bryant, C. M., Deep-well camera	129	(9)	9276
Barta, G., On the changes of horizontal intensity and inclination of the earth magnetism in Transylvania, 1943.0	130	(2)	9350
Bartels, J., Daily international magnetic character-figures, for the years 1884 to 1889	131	(2)	9538
Bataafsche Petroleum Maatschappij, Method and apparatus for taking gas samples from the earth, Dutch patent 51,017	130	(7)	9506
Bateman, H. B., Some integral equations of potential theory	129	(8)	9252
Bayard-Duclaux, F., with Grenet, G., The Modified-Wenner C. G. 1 universal vertical seismograph	131	(3)	9566
Beach, F. K., Pressure-temperature-gravity relations in wells producing oil and gas	129	(6)	9244
Beach, L. F., Magnetic field responsive device, U. S. patent 2,410,039	130	(2)	9483
Beacham, C. C., with West, T. S., A resistolog survey of the Loma Alto-Seven Sisters area of McMullen and Duval Counties, Tex	128	(4)	9047
Beers, R. F., The Committee on Geophysical Sciences of the Joint Research and Development Board	129	(8)	9253
Beers, R. F., and Larsen, H. R., A new station-type magnetometer	130	(2)	9351
Belluigi, Arnaldo, Concerning the graphic-analytical evaluation of the electromagnetic fields of mineral deposits	128	(4)	9036
——— On new developments in electrical prospecting—Electro-chemical sounding, Eltran method	129	(4)	9221
Benfield, A. E., A heat flow value for a well in California	130	(6)	9434
Bennett, H., Concise chemical and technical dictionary	130	(9)	9462
Bennett, T. F., Explosive cartridge assembly, U. S. patent 2,403,488	129	(3)	9303
Berggren, W. P., with Mersman, W. A., and Boelter, L. M. K., The conduction of heat in composite infinite solids	129	(6)	9247
Berson, I. S., Kinematic possibilities of the existence of Mintrop waves in certain continuously discrete media	128	(3)	9005
——— The interpretation of surface hodographs of reflected waves	129	(3)	9182
——— On a solution of the direct problem of the method of refracted waves in continuous media with surfaces of separation	130	(3)	9376
Besairie, Henri, The new magnetic network of Madagascar—Magnetic survey of 1938	130	(2)	9352
Bethe, H. A., with Barschall, H. H., Energy sensitivity in fast neutron counters	130	(5)	9425
Bichan, W. J., Structural principles controlling the occurrence of ore in the Kolar Gold Field	131	(9)	9654
Billings, M. P., and Keevil, N. B., Petrography and radioactivity of four Paleozoic magma series in New Hampshire	128	(5)	9051
Birch, Francis, Crustal structure and surface heat flow near the Colorado Front Range	131	(6)	9620

	No.	Class	Abst.
Birch, Francis, and Clark, Harry, An estimate of the surface flow of heat in the West Texas Permian Basin	128	(6)	9061
Bishopp, D. W., The occurrence of nickel and magnetite in some Irish serpentines in conjunction with a magnetic survey	129	(2)	9159
Black, Robert, Vibration detector, U. S. patent 2,410,805	130	(3)	9492
Blackburn, M. S., Radiographic method of geophysical exploration	131	(4)	9598
Blake, Archie, Criteria for the reality of apparent periodicities and other regularities	129	(3)	9183
Blanchard, Jacques, The hypothesis of pole displacement and Quaternary chronology	130	(9)	9463
Bodle, R. R., United States earthquakes, 1944	129	(3)	9184
Boelter, L. M. K., with Mersman, W. A., and Berggren, W. P., The conduction of heat in composite infinite solids	129	(6)	9247
Gogdanov, A. I., The role of geophysical methods of exploration in the oil industry of the United States	130	(8)	9441
Bolidens Gruvaktiebolaget, Method of determining variations in the horizontal component of the force of gravity by measurements of relative plumb-line indications, Danish patent 58,229	129	(1)	9295
——— Method of determining the variation of the horizontal component of gravity by means of two plumb lines and an apparatus for applying this method, Dutch patent 51,926	131	(1)	9672
——— Device for gravimeter, Swedish patent 105,041	131	(1)	9673
Bonchkovskii, V. F., The thickness of the earth's crust	128	(3)	9006
Boss, R. L., and Hilseweck, W. J., Developments in west Texas and southeastern New Mexico in 1946	131	(8)	9630
Bostwick, L. G., Acoustic device, U. S. patent 2,404,784	129	(3)	9304
Bousquet, A., with Kip, A., Evans, R., and Tuttle, W., Design and operation of an improved counting rate meter	128	(5)	9055
Bower, T. H., Log map, new type of subsurface map	129	(4)	9222
Boyd, W. B., with Swan, B. G., Geophysical history of the Guthrie Field, Logan County, Okla	130	(3)	9404
Boyer, R. Q., with Craig, Roderick, Torsion balance, U. S. patent 2,417,392	131	(1)	9671
Braddon, F. D., Magnetic deflection corrected compass, U. S. patent 2,411,866	128	(2)	9114
Bradley, W. S., Program of the United States Geological Survey	131	(8)	9631
Bridgman, P. W., Recent work in the field of high pressure	128	(8)	9068
Brown, Andrew, with McCollum, E. V., Use of the gravity meter in establishment of gravity bench marks	130	(1)	9339
Brown, C. H., Obstacle detection system, U. S. patent 2,410,424	128	(9)	9137
Brown, E. L., Prospecting in the Granville Lake mineral area, Manitoba	129	(2)	9160
Brown, L. E., and Williams, O. W., Well tester, U. S. patent 2,404,825	129	(7)	9321
Brown, R. W., Magnetic testing appartus, U. S. patent 2,425,361	131	(2)	9680
Bruckshaw, J. McGarva, Geophysical prospecting and petroleum discovery	130	(4)	9415
——— The magnetic method of geophysical prospecting	131	(2)	9553
Brundall, Laurence, Photogeology aids oil exploration	129	(9)	9277
Bryant, C. M., with Barstow, O. E., Deep-well camera	129	(9)	9276
Buckley, O. E., Detection of large magnetic bodies, U. S. patent 2,415,808	129	(2)	9302
Bugailo, V. A., Determination of average velocity by the methods of summation, difference, and constant difference	131	(3)	9561
Bulanzhe, Iu. D., with Tikhonov, A. N., On the integration of gravitational fields	128	(1)	8978
Bulashevich, Iu. P., Concerning the theory of interpretation of radioactive anomalies	129	(5)	9237
——— Diffusion of emanation in the ground, with a correction for convection	131	(5)	9610
Bull, A. J., Terrestrial heat and earth movements	131	(8)	9632
Bullen, K. E., An hypothesis on compressibility at pressures of the order of a million atmospheres	128	(8)	9069
Bureau de Recherches Géologiques et Géophysiques, Gravimetric prospecting of the Bas Dauphiné, France	130	(1)	9331

	No.	Class	Abst.
Bureau of O. F. M. N., A. N., S. S. S. R., The scientific activity of the Division of Physico-Mathematical Sciences of the Academy of Sciences of the U. S. S. R. and its affiliated institutions in the year 1945	131	(8)	9633
Burns, W. W., Airborne magnetometer surveys of Bahamas soon to start	130	(2)	9353
Burton, G. A., with Thomsen, H. L., Winter operation of geophysical equipment in the Rocky Mountain area	129	(8)	9269
Buss, K. A. H., Note on Tiberg's method of subterranean magnetic measurements and on the use of a parallelogram of forces	128	(2)	8982

C

California Oil World, Checking cement behind pipe with radioactivity log	131	(5)	9611
——— Trends and techniques in petroleum exploration	131	(8)	9634
Callaham, L. I., Russian-English technical and chemical dictionary	131	(9)	9655
Cameron, E. N., Applications of the concept of zonal structure in pegmatites to prospecting for feldspar	130	(9)	9464
Campbell, O. E., Principal uses of fluorologs	128	(8)	9070
Cantos, J., Hydrological investigations by the method of seismic prospecting in the Province of Castellon	128	(3)	9007
——— Geophysical methods according to R. M. Noya in their application to problems of subterraneous water	129	(8)	9254
Cantrell, Ralph, with Hagen, C., Development trends in salt dome exploration	128	(8)	9077
Carlson, W. L., Superheterodyne radio altimeter or locator, U. S. patent 2,424,796	131	(9)	9705
Carlson, W. L., and Landon, V. D., Frequency modulated altimeter or distance indicator, U. S. patent 2,422,079	130	(9)	9517
Carnegie Institution of Washington, Year Book No. 43, July 1, 1943–June 30, 1944	128	(8)	9071
——— Year Book No. 44, July 1, 1944–June 30, 1945	129	(8)	9255
——— Year Book No. 45, July 1, 1945–June 30, 1946	130	(8)	9442
Carter, L. F., Gyro magnetic compass system, U. S. patent 2,414,448	131	(2)	9674
Čechura, F., Magnetic declination in the region of the middle Moldau	129	(2)	9161
——— Magnetic declination on the Rip Mountain and its surroundings	131	(2)	9539
Chace, F. M., The search for ore deposits—geologic methods and concepts	131	(9)	9656
Chalard, J., Application of the Geiger-Müller counter to the stratigraphy of the coal basin in the north of France	128	(5)	9052
Chance, Britton, The interconnection of dead-reckoning and radar data for precision navigation and prediction	129	(9)	9278
Charczenko, Pierre, Note on certain geophysical formulas employed in gravimetric prospecting	128	(1)	9685
Chemical Engineering and Mining Review, Bureau of Mineral Resources, Geology, and Geophysics	128	(8)	9072
Clark, A. R., Geophysical devices as an aid to prospecting	128	(4)	9037
Clark, G. L., The gravitational field of a rotating cohesive system	129	(1)	9140
——— Note on the velocity of propagation of gravitation	131	(1)	9520
Clark, Harry, with Birch, Francis, An estimate of the surface flow of heat in the West Texas Permian Basin	128	(6)	9061
Clark, James, with Williams, F. W., Method and means for testing for imperfections in vibratable objects, U. S. patent 2,412,240	130	(3)	9495
Clarke, J. E., Magnetic testing apparatus, U. S. patent 2,423,552	130	(2)	9488
Claypool, C. B., with Allison, A. P., Developments in upper Gulf coast of Texas in 1946	130	(8)	9440
Cody, C., and Cody, M., Seismograph exploration in Venezuela, part 2	128	(3)	9008
Cody, M., with Cody, C., Seismograph exploration in Venezuela, part 2	128	(3)	9008
Coffin, R. C., Recent trends in geological-geophysical exploration and methods of improving use of geophysical data	129	(8)	9256
Comité National Français de Géodesie et Géophysique, Transactions for 1939–40, 1941–42, 1943, 1944	129	(8)	9257

	No.	Class	Abst.
Congdon, R. L., The design and testing of a versatile dynamic seismometer	131	(3)	9562
Conselho Nacional do Petroleo, Brazil, Brazilian National Council of Petroleum, report for 1945	131	(8)	9635
Cooke, S. R. B., with Sloss, L. L., Spectrochemical sample logging of limestones	128	(7)	9067
Cooper, C., with Vestine, E. H., and Laporte, L., Geomagnetic secular change during past epochs	128	(2)	9001
Cooper, H. J., Scientific instruments	128	(9)	9094
Cork, J. M., Radioactivity and nuclear physics	130	(5)	9426
Cork, J. M., Shreffler, R. G., and Shull, F. B, Magnetic field measurement in beta-spectroscopy	131	(2)	9540
Corsaro, G., Review of the corrosion process	131	(4)	9599
Cosby, J. R., with Nelson, D. H., Means for and method of locating faults in electrical conductors, U. S. patent 2,425,554	131	(4)	9691
Courter, L. A., Method of determining permeability of earth formations penetrated by well bores, U. S. patent 2,413,435	130	(9)	9512
Cowles, L. G., with Wolf, Alexander, Well sounding apparatus, U. S. patent 2,411,311	128	(3)	9121
Craig, Roderick, and Boyer, R. Q., Torsion balance, U. S. patent 2,417,392	131	(1)	9671
Critikos, N. A., Report on the seismicity of Attica	129	(3)	9185
——— Relationships between seismic phenomena and volcanic manifestations in the Aegean Sea and eastern Greece	131	(3)	9563
Critz, J. S., Oil possibilities of the Gulf coast Continential Shelf	128	(8)	9073
Crompton, Wilfred, with Evans, Percy, Geological factors in gravity interpretation illustrated by evidence from India and Burma	130	(1)	9333
Cronshow, H. B., Oil geologists meet in California	128	(3)	9009
Cüer, Pierre, Prospecting for uranium by the use of its alpha particles	130	(5)	9427
Cullen, R. J., Developments in Oklahoma in 1946	131	(8)	9636
Curie, Marie, Radioactivity	128	(5)	9053
Curtiss, L. F., with Krasnow, Shelley, Method and apparatus for direct recording of borehole radioactivity, U. S. patent 2,409,436	128	(5)	9128
Cusset, Francis, English-French and French-English technical dictionary	128	(9)	9095

D

Dake, H. C., with De Ment, Jack, Prospecting for uranium minerals	128	(5)	9054
——— Handbook of uranium minerals	130	(8)	9444
Daly, R. A., Use of rock "norms" in geophysical investigations	128	(3)	9010
Danckwortt, P. W., Luminescence analysis in filtered ultraviolet light	130	(8)	9443
Davis, C. E., Interpretation of electrical well logs in the midcontinent area	129	(4)	9223
Davis, R. E., and Foote, F. S., Surveying—Theory and practice, 3d ed	131	(9)	9657
Deegan, C. J., Pratt sees great oil potentialities on continental shelf [and] slope	129	(9)	9279
——— Helicopter aids in oil search	130	(1)	9332
——— The mass spectrometer and what it does	131	(7)	9623
De Forest, Lee, Method of and apparatus for determining absolute altitude, U. S. patent 2,421,248	130	(9)	9514
De Golyer, E. L., Oil exploration in the Middle East	129	(9)	9280
Delaygue, Arthur, A tentative theory of the origin of the geomagnetic field	130	(2)	9354
De Ment, Jack, Fluorescent techniques in petroleum exploration	129	(7)	9248
——— Uranium and thorium prospecting with the Geiger counter	131	(5)	9612
De Ment, Jack, and Dake, H. C., Prospecting for uranium minerals	128	(5)	9054
——— Handbook of uranium minerals	130	(8)	9444
Dent, G. E., with Kuehn, H. E., Comparative study of magnetic surveys of Worcester County, Md., made on the ground and from airplane observations	130	(2)	9360
Depp, M. C., and Fragola, C. F., Flux valve, U. S. patent 2,403,347	129	(2)	9296
De Vries, Louis, German-English science dictionary, 2d ed	128	(9)	9096

	No.	Class	Abst.
Diday, Marcel, Graphic presentation of the variations of magnetic declination in Switzerland	128	(2)	8983
Dinger, J. E., and Gunn, Ross, Electrical effects associated with a change of state of water	131	(4)	9600
Dinsmore, C. B., Magnetic compass compensating field device, U. S. patent 2,417,864	130	(2)	9484
Discovery, The Geiger-Müller counter	131	(5)	9613
Disney, R. W., Trimetrogon aerial photography—oil industry's newest surveying tool	128	(9)	9097
Diukov, A. I., An experiment in the magnetic orientation of borehole cores from the eastern Donbas	131	(2)	9541
Dix, C. H., The interpretation of well shot data, III	128	(3)	9011
——— Efficiency in exploration, I, General	131	(9)	9658
Dix, C. H., Fu, C. Y., and McLemore, E. W., Rayleigh waves and free surface reflections	129	(3)	9186
Dobbin, C. E., Geological features of the Rocky Mountain oil region	129	(9)	9281
Dobrin, M. B., and others, Seismic-refraction survey of Bikini Atoll	130	(3)	9377
Doll, H. G., and Schwede, H. F., Radioactive markers in oil field practice	130	(5)	9428
Doll, H. G., Legrand, J .C., and Stratton, E. F., True resistivity determination from the electric log, and its application to log analysis	130	(4)	9412
Donabedov, A. T., and Feofilova, A. P., Geophysical methods in the search and exploration of coal deposits and basins in the U. S. S. R.	130	(8)	9445
Doshier, A. W., with Grant, P. A., Developments in Texas Panhandle	130	(8)	9446
Dougherty, E. Y., and Fitzhugh, E. F., Jr., Magnetic reconnaissance in north-central Minnesota in 1945	128	(2)	8984
Dougherty, P. F., with Winn, W. E., Method of logging wells, U. S. patent 2,408,964	128	(7)	9131
——— Method of logging wells, U. S. patent 2,408,965	128	(7)	9132
Draper, C. S., and Wrigley, Walter, An instrument for measuring low frequency accelerations in flight	128	(3)	9012
Dreyer, R. M., Magnetic survey of the Bala intrusive, Riley County, Kans.	131	(2)	9542
Due Rojo, A., The theory of epicentral migration and the geographic and chronological distribution of seisms in the south and southeast of the Iberian Peninsula	129	(3)	9187
Duffin, R. J., Measurement of magnetic susceptibility with the Hughes induction balance	128	(2)	8985
Duvall, Wilber, with Obert, Leonard, and Windes, S. L., Standardized tests for determining the physical properties of mine rock	128	(9)	9103

E

Earp, C. W., Distance measuring system, U. S. patent 2,423,088	131	(9)	9704
Eisler, J. D., and Silverman, Daniel, Multichannel pen recorder for electrical logging operations	131	(4)	9601
Eisler, J. D., with Silverman, Daniel, and Evans, J. F., Vehicle borne instrument for continuously indicating road elevations	130	(9)	9475
Elkins, T. A., with Nettleton, L. L., Geologic models made from granular materials	131	(9)	9660
Elliott, G. A., and Lee, R. H., The construction of Geiger-Müller tubes of high sensitivity to β-radiations	130	(5)	9429
Emerson, W. H., and Hering, Donald, Well surveying instrument, U. S. patent 2,412,976	128	(8)	9135
Emery, K. O., with Shepard, F. P., Submarine photography off the California coast	128	(9)	9109
Englehardt, G. B., Object locating system, U. S. patent 2,421,747	130	(9)	9515
Ennis, G. H., Method of and apparatus for locating formations in cased wells, U. S. patent 2,414,194	128	(4)	9127
Epinat'eva, A. M., On the average seismic velocity in the conditions of the eastern Apsheron syncline	128	(3)	9013

	No.	Class	Abst.
Erickson, E. L., Geophysical history of the Wasco oil field, Kern County, Calif	129	(3)	9188
Esseling, C. J., Drilling with counterflush continuous coring	128	(9)	9098
Evans, J. F., with Silverman, Daniel, and Eisler, J. D., Vehicle borne instrument for continuously indicating road elevations	130	(9)	9475
Evans, Percy, and Crompton, W., Geological factors in gravity interpretation illustrated by evidence from India and Burma	130	(1)	9333
Evans, R. D., with Kip, A., Bousquet, A., and Tuttle, W., Design and operation of an improved counting rate meter	128	(5)	9055
Evjen, H. M., and Lewis, W. B., Further experimental proofs of working depths for low-frequency commutated currents	129	(4)	9224
Evrard, Pierre, with Magnée, I. de, The value of geological interpretation of magnetic profiles	128	(2)	8993
——— The Nørgaard gravimeter	131	(1)	9529
Ewing, Maurice, Geophysical investigations of continental borders	131	(3)	9564
